

## **Ephratarec.com Website How-To**

There are two ways to register for classes or programs online: as a member or as a guest.

### **Register on the LEFT SIDE of the screen as a MEMBER if:**

- You have a current Rec Center membership
- You have a Rec membership that expired
- You are a current participant in a program or class
- You previously participated in a program or class

All people logging in as members will need a username. If you do not know your username or have never received one, click "Forgot password?/Create Login (for current or past member or program participants) click here" on left side of the screen to start the process. You will receive an e-mail from [info@ephratarec.com](mailto:info@ephratarec.com) with your login information.

\*Very important for families who do not current have Rec Center memberships but have previously been members or participated in programs here: you will need login info for all members of your family in order to register the correct family member in the class/program. Example: your child will need a login if he or she is going to participate in youth swimming lessons.

If you need assistance getting login info for any family member, please contact [maria@ephratarec.com](mailto:maria@ephratarec.com).

### **Register on the RIGHT SIDE of the screen as a MEMBER if:**

- You have never had a Rec Center Membership
- You have never participated in a Rec Center program or class

\*If you are registering your child for a program, you will need to create the guest account in his or her name so that the correct person is registered for the program.
